INTRODUCTION

This Municipal Stormwater Management Plan (MSWMP) documents the strategy for the Township of Eagleswood ("the Township") to address stormwater related impacts. The creation of this plan is required by N.J.A.C. 7:14A-25 Municipal Stormwater Regulations. This plan contains and adopts all of the required elements described in N.J.A.C. 7:8 Stormwater Management Rules. The plan endorses groundwater recharge, stormwater quantity, and stormwater quality impacts by incorporating stormwater design and performance standards for new major development, defined as projects that disturb one or more acre of land. These standards are intended to minimize the adverse impact of stormwater runoff on water quality and water quantity and the loss of groundwater recharge that provides baseflow in receiving water bodies. The plan through future Ordinances describes long-term operation and maintenance measures for existing and future stormwater facilities.

The "build-out" analysis Table C-1 has been included in this plan based upon existing zoning and land available for development. The plan addresses the review and update of existing Ordinances, the Township Master Plan, and other planning documents to allow for project designs that include low impact development techniques. The final component of this plan is a mitigation strategy for when a variance or exemption of the design and performance standards is sought. As part of the mitigation section of the Stormwater Plan, specific stormwater management measures are identified to lessen the impact of existing development.
GOALS

Although each Municipal plan may have different or more specific goals, listed below are the minimum set of goals that should be included in all Municipal Stormwater Management Plans.

The goals of this MSWMP are to:

- reduce flood damage, including damage to life and property;
- minimize, to the extent practical, any increase in stormwater runoff from any new development;
- reduce soil erosion from any development or construction project;
- assure the adequacy of existing and proposed culverts and bridges, and other in-stream structures;
- maintain groundwater recharge;
- prevent, to the greatest extent feasible, an increase in non-point pollution;
- maintain the integrity of stream channels for their biological functions, as well as for drainage;
- minimize pollutants in stormwater runoff from new and existing development to restore, enhance, and maintain the chemical, physical, and biological integrity of the waters of the State, to protect public health, to safeguard fish and aquatic life and scenic and ecological values, and to enhance the domestic, Municipal, recreational, industrial and other uses of water; and
- protect public safety through the proper design and operation of stormwater basins.

To achieve these goals, this plan outlines specific stormwater design and performance standards for new development. Additionally, the plan proposes stormwater management controls to address impacts from existing development. Preventative and corrective maintenance strategies are included in the plan to ensure long-term effectiveness of stormwater management facilities.
STORMWATER DISCUSSION

Land development can dramatically alter the hydrologic cycle (See Figure C-1) of a site and, ultimately, an entire watershed. Prior to development, native vegetation can either directly intercept precipitation or draw that portion that has infiltrated into the ground and return it to the atmosphere through evapotranspiration. Development can remove this beneficial vegetation and replace it with lawn or impervious cover, reducing the site's evapotranspiration and infiltration rates. Clearing and grading a site can remove depressions that store rainfall. Construction activities may also compact the soil and diminish its infiltration ability, resulting in increased volumes and rates of stormwater runoff from the site. Impervious areas that are connected to each other through gutters, channels, and storm sewers can transport runoff more quickly than natural areas. This shortening of the transport or travel time quickens the rainfall-runoff response of the drainage area, causing flow in downstream waterways to peak faster and higher than natural conditions. These increases can create new and aggravate existing downstream flooding and erosion problems and increase the quantity of sediment in the channel. Filtration of runoff and removal of pollutants by surface and channel vegetation is eliminated by storm sewers that discharge runoff directly into a stream. Increases in impervious area can also decrease opportunities for infiltration which, in turn, reduces stream base flow and groundwater recharge. Reduced base flows and increased peak flows produce greater fluctuations between normal and storm flow rates, which can increase channel erosion. Reduced base flows can also negatively impact the hydrology of adjacent wetlands and the health of biological communities that depend on base flows. Finally, erosion and sedimentation can destroy habitat from which some species cannot adapt.
In addition to increases in runoff peaks, volumes, and loss of groundwater recharge, land development often results in the accumulation of pollutants on the land surface that runoff can mobilize and transport to streams. New impervious surfaces and cleared areas created by development can accumulate a variety of pollutants from the atmosphere, fertilizers, animal wastes, and leakage and wear from vehicles. Pollutants can include metals, suspended solids, hydrocarbons, pathogens, and nutrients.

In addition to increased pollutant loading, land development can adversely affect water quality and stream biota in more subtle ways. For example, stormwater falling on impervious surfaces or stored in detention or retention basins can become heated and raise the temperature of the downstream waterway, adversely affecting cold water fish species such as trout. Development can remove trees along stream banks that normally provide shading, stabilization, and leaf litter that falls into streams and becomes food for the aquatic community.
BACKGROUND

The Township of Eagleswood was incorporated in 1874 and encompasses a 16.5 square mile area in southern Ocean County, New Jersey. The Township is bounded on the north and east by Stafford Township, on the south by Barnegat Bay and on the west by Little Egg Harbor Township.

The northwest sector of the Township, i.e. all lands north and west of the Garden State Parkway, is within the jurisdiction of the New Jersey Pinelands Commission. This land area is approximately 2,415 acres, 23 percent, of the Township. The remainder of the Township is within the Coastal Area Facility Review Act (CAFRA) jurisdiction.

In recent years, the Township has seen a decrease in population. The population of the Township increased from 1,009 in 1980 to 1,476 in 1990 and decreased to 1,441 in 2000. Even though the population has decreased 2.3 percent from 1990 to the 2000 census, demand for new development has increased; changes in the landscape have most likely increased stormwater runoff volumes and pollutant loads to the waterways of the Municipality. Figure C-2 illustrates the waterways in the Township. Figure C-3 depicts the Township boundary on the on the USGS quadrangle maps.

The New Jersey Department of Environmental Protection (NJDEP) has established an Ambient Biomonitering Network (AMNET) to document the health of the State's waterways. There are over 800 AMNET sites throughout the State of New Jersey. These sites are sampled for benthic macroinvertebrates by NJDEP on a five-year cycle. Streams are classified as non-impaired, moderately impaired, or severely impaired based on the AMNET data. The data is used to generate a New Jersey Impairment Score (NJIS), which is based on a number of biometrics related to benthic macroinvertebrate community dynamics.

The Township is bordered on the east by Barnegat Bay. There are three main waterways flowing through the Township that terminate in Barnegat Bay: Cedar Run Creek, Dinner Point Creek, and Westecunk Creek. The NJDEP Shellfish Monitoring Program reports the three waterways are impaired with respect to Total Coliform. This means that these waterways are impaired waterways and the NJDEP is required to develop a Total Maximum Daily Load (TMDL) for these pollutants for each waterway.

A TMDL is the amount of a pollutant that can be accepted by a water body without exceeding water quality standards or interfering with the ability to use a water body for one or more of its designated uses. The allowable load is allocated to the various sources of the pollutant, such as stormwater and wastewater discharges, which require an NPDES Permit to discharge, and non-point source, which includes stormwater runoff from agricultural areas and residential areas, along with a margin
of safety. Provisions may also be made for future sources in the form of reserve capacity. An implementation plan is developed to identify how the various sources will be reduced to the designated allocations. Implementation strategies may include improved stormwater treatment plants, adoption of ordinances, reforestation of stream corridors, retrofitting stormwater systems, and other BMPs.

The New Jersey Integrated Water Quality Monitoring and Assessment Report (305(b) and 303(d)) (Integrated List) is required by the Federal Clean Water Act to be prepared biennially and is a valuable source of water quality information. This combined report presents the extent to which New Jersey waters are attaining water quality standards, and identifies waters that are impaired. Sublist 5 of the Integrated List constitutes the list of waters impaired or threatened by pollutants, for which one or more TMDLs are needed.
DESIGN AND PERFORMANCE STANDARDS

The Township will adopt the design and performance standards for stormwater management measures as presented in N.J.A.C. 7:8-5 to minimize the adverse impact of stormwater runoff on water quality and water quantity and loss of groundwater recharge in receiving water bodies. The design and performance standards include the language for maintenance of stormwater management measures consistent with the Stormwater Management Rules at N.J.A.C. 7:8-5.8 Maintenance Requirements, and language for safety standards consistent with N.J.A.C. 7:8-6 Safety Standards for Stormwater Management Basins. The Ordinances will be submitted to the county for review and approval within 18 months of the effective date of permit authorization.

During construction, Township inspectors will observe the construction of the project to ensure that the stormwater management measures are constructed and function as designed.
PLAN CONSISTENCY

The Township is not within a Regional Stormwater Management Planning Area and no TMDLs have been developed for waters within the Township, therefore this plan does not need to be consistent with any Regional Stormwater Management Plans (RSWMPs) or any TMDLs. If any RSWMPs or TMDLs are developed in the future, this Municipal Stormwater Management Plan will be updated to be consistent.

The Municipal Stormwater Management Plan is consistent with the Residential Site Improvement Standards (RSIS) at N.J.A.C. 5:21. The Municipality will utilize the most current update of the RSIS in the stormwater management review of residential areas. This Municipal Stormwater Management Plan will be updated to be consistent with any future updates to the RSIS.

The Township's Stormwater Management Ordinance requires all new development and redevelopment plans to comply with New Jersey's Soil Erosion and Sediment Control Standards. During construction, Township inspectors will observe on-site soil erosion and sediment control measures and report any inconsistencies to the local Soil Conservation District.
NONSTRUCTURAL STORMWATER MANAGEMENT STRATEGIES

The Township has reviewed the Master Plan and Ordinances, and has established a list of the sections in the Township Land Use and Zoning Ordinances that are to be modified to incorporate nonstructural stormwater management strategies. These are the ordinances identified for revision. Once the ordinance texts are completed, they will be submitted to the County review agency for review and approval within 18 months of the effective date of permit authorization. A copy will be sent to the Department of Environmental Protection at the time of submission.

Chapters 92-27, 103-1 and 103-22 will require amending to comply with the stormwater requirements and buffering.
LAND USE/BUILD-OUT ANALYSIS

A detailed land use analysis for the Township was conducted. Figure C-6 illustrates the existing land use in the Township based on 1995/97 GIS information from NJDEP. Figure C-7 illustrates the HUC14s within the Township. The Township Zoning Map is shown in Figure C-8. Figure C-9 illustrates the constrained lands with the Township. (Note: For this sample plan, every constrained land was not mapped.) The build-out calculations for impervious cover are shown in Table C-1. As expected when developing agricultural and forest lands, the build-out of these HUC14s will result in a significant increase in impervious surfaces.

Table C-2 presents the pollutant loading coefficients by land cover. The pollutant loads at full build-out are presented in Table C-3.

It is important to note that, although the pollutant loads for agricultural lands are higher than those for low density residential for the parameters in Table C-2, converting agricultural lands to residential typically results in an increase in pollutant loads for metals and petroleum hydrocarbons. Also, total suspended solids loads due to stormwater runoff may decrease due to the conversion of agricultural lands to low density residential, but the percentage of impervious surfaces increases dramatically. If, due to the increase of impervious surfaces, increases in stormwater runoff flows are not managed properly, these high flows will increase streambank erosion, thereby increasing sediment loads to the receiving waters.
MITIGATION PLANS

This Mitigation Plan is provided for a proposed development that is granted a variance or exemption from the stormwater management design and performance standards. Presented is a hierarchy of options.

MITIGATION PROJECT CRITERIA

1. The mitigation project must be implemented in the same drainage area as the proposed development. The project must provide additional groundwater recharge benefits, or protection from stormwater runoff quality and quantity from previously developed property that does not currently meet the design and performance standards outlined in the Municipal Stormwater Management Plan. The developer must ensure the long-term maintenance of the project, including the maintenance requirements under Chapters 8 and 9 of the NJDEP Stormwater BMP Manual.

   a. The applicant can select one of the following projects listed to compensate for the deficit from the performance standards resulting from the proposed project. More detailed information on the projects needs to be established by the Township. Listed below are examples of general projects that can be used to address the mitigation requirement.

GROUNDWATER RECHARGE

2. If a suitable site cannot be located in the same drainage area as the proposed development, as discussed in Option 1, the mitigation project may provide mitigation that is not equivalent to the impacts for which the Variance or exemption is sought, but that addresses the same issue. For example, if a Variance is given because the 80 percent TSS requirement is not met, the selected project may address water quality impacts due to a fecal impairment. Listed below are general projects that can be used to address the mitigation option.

   • Retrofit the Elementary School site and the Municipal Building to provide the parking area with groundwater recharge.

WATER QUALITY

   • Retrofit the existing Township storm drain inlets to provide water quality control.

   • Provide goose management measures, including public education at the recreation fields within the Township.

Attn: Mr. Dave McKeon
Assistant Planning Director

Re: Stormwater Management Plan
Township of Eagleswood
EE&L Project No. 04E3150

Dear Mr. McKeon:

On April 1, 2005 this office submitted Eagleswood Township's Stormwater Management Plan. However, after conversations with the Municipal Clerk, Mike McFadden, it was discovered that the Table C-1 had an erroneous column, i.e., the build out for impervious areas. The enclosure should be substituted into the previous four (4) copies of the Stormwater Plan.

Very truly yours,

John J. Mallon, P.E.
Township Engineer

JVM/gar

Enclosure

ORDINANCE NO. 2005-17

ORDINANCE OF THE TOWNSHIP OF EAGLESWOOD, COUNTY OF OCEAN, STATE OF NEW JERSEY, AMENDING AND SUPPLEMENTING THE TOWNSHIP CODE OF THE TOWNSHIP OF EAGLESWOOD SO AS TO CREATE A NEW CHAPTER 105A ENTITLED “ILLEGAL CONNECTION”

BE IT ORDAINED, by the governing body of the Township of Eagleswood, County of Ocean, State of New Jersey, as follows:

SECTION 1. The Code of the Township of Eagleswood is hereby amended and supplemented so as to create a new Chapter 105A entitled “Illegal Connection” which shall read in its entirety as follows:

§ 105A-1. Purpose.

This ordinance prohibits illegal connections to the municipal separate storm sewer system(s) operated by the Township of Eagleswood, so as to protect public health, safety and welfare, and prescribes penalties for the failure to comply.

For the purpose of this ordinance, the following terms, phrases, words, and their derivations shall have the meanings stated herein unless their use in the text of this Chapter clearly demonstrates a different meaning. When not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word “shall” is always mandatory and not merely directory. The definitions below are the same as or based on corresponding definitions in the New Jersey Pollutant Discharge Elimination System (NJPDES) rules at N.J.A.C. 7:14A-1.2.
a. Domestic sewage - waste and wastewater from humans or household operations.

b. Illicit connection – any physical or non-physical connection that discharges domestic sewage, non-contact cooling water, process wastewater, or other industrial waste (other than stormwater) to the municipal separate storm sewer system operated by the Township of Eagleswood, unless that discharge is authorized under a NJPDES permit other than the Tier A Municipal Stormwater General Permit (NJPDES Permit Number NJ0141852). Non-physical connections may include, but are not limited to, leaks, flows, or overflows into the municipal separate storm sewer system.

c. Industrial waste - non-domestic waste, including, but not limited to, those pollutants regulated under Section 307(a), (b), or (c) of the Federal Clean Water Act (33 U.S.C. §1317(a), (b), or (c)).

d. Municipal separate storm sewer system (MS4) – a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, manmade channels, or storm drains) that is owned or operated by the Township of Eagleswood or other public body, and is designed and used for collecting and conveying stormwater.

e. NJPDES permit — a permit issued by the New Jersey Department of Environmental Protection to implement the New Jersey Pollutant Discharge Elimination System (NJPDES) rules at N.J.A.C. 7:14A.

f. Non-contact cooling water - water used to reduce temperature for the purpose of cooling. Such waters do not come into direct contact with any raw material, intermediate product (other than heat) or finished product. Non-contact cooling water may however contain algaeccides, or biocides to control fouling of equipment such as heat exchangers, and/or corrosion inhibitors.

g. Person – any individual, corporation, company, partnership, firm, association, or political subdivision of this State subject to municipal jurisdiction.

h. Process wastewater - any water which, during manufacturing or processing, comes into direct contact with or results from the production or use of any raw material, intermediate product, finished product, byproduct, or waste product. Process wastewater includes, but is not limited to, leachate and cooling water other than non-contact cooling water.

i. Stormwater – water resulting from precipitation (including rain and snow) that runs off the land's surface, is transmitted to the subsurface, is captured by separate storm sewers or other sewerage or drainage facilities, or is conveyed by snow removal equipment.

§ 105A-3. Prohibited Conduct
No person shall discharge or cause to be discharged through an illicit connection to the municipal separate storm sewer system operated by the Township of Eagleswood any domestic sewage, non-contact cooling water, process wastewater, or other industrial waste (other than stormwater).

§ 105A-4. Enforcement.

This ordinance shall be enforced by the Code Enforcement Officer of the Township of Eagleswood.

§ 105A-5. Penalties.

Any person who is found to be in violation of the provisions of this ordinance shall be fined not more than $1,250.00 or imprisoned for not more than ninety (90) days, or both, for each violation of this Ordinance. Each and every day that such violation continues shall be considered a separate violation.

SECTION 2. All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

SECTION 3. Each section, subsection, sentence, clause and phrase of this Ordinance is declared to be an independent section, subsection, sentence, clause and phrase, and the finding or holding of any such portion of this Ordinance to be unconstitutional, void, or ineffective for any cause, or reason, shall not affect any other portion of this Ordinance.

SECTION 4. This ordinance shall take effect after second reading and publication as required by law.

Notice

NOTICE IS HEREBY GIVEN that the foregoing ordinance was introduced and passed by the Township Committee on first reading at a meeting of the Township Committee of the
Township of Eagleswood held on the 22nd day of August, 2005, and will be considered for second reading and final passage at a regular meeting of the Township Committee to be held on the 26th day of September, 2005 at 7:00 p.m., at the Municipal Building, located at 146 Division Street, West Creek, New Jersey, at which time and place any persons desiring to be heard upon the same will be given the opportunity to be so heard.

Michael McFadden, DEPUTY CLERK
TOWNSHIP OF EAGLESWOOD

PUBLIC NOTICE

PLEASE TAKE NOTICE that Ordinance No. 2005-17 of 2005, an ordinance entitled, AN ORDINANCE OF THE TOWNSHIP OF EAGLESWOOD, COUNTY OF OCEAN, STATE OF NEW JERSEY, AMENDING AND SUPPLEMENTING THE TOWNSHIP CODE OF THE TOWNSHIP OF EAGLESWOOD SO AS TO CREATE A NEW CHAPTER 105A ENTITLED "ILlicit CONNECTIONS", was adopted by the Township of Eagleswood Committee at a meeting held on September 26, 2005.

Michael E. McFadden
Acting Municipal Clerk
ORDINANCE NO. 2005-18

ORDINANCE OF THE TOWNSHIP OF
EAGLESWOOD, COUNTY OF OCEAN, STATE OF
NEW JERSEY, AMENDING AND SUPPLEMENTING
THE TOWNSHIP CODE OF THE TOWNSHIP OF
EAGLESWOOD SO AS TO CREATE A NEW
CHAPTER 58A ENTITLED "PET WASTE"

BE IT ORDAINED, by the governing body of the Township of Eagleswood,
County of Ocean, State of New Jersey, as follows:

SECTION 1. The Code of the Township of Eagleswood is hereby amended and
supplemented so as to create a new Chapter 58A entitled "Pet Waste" which shall read in its
entirety as follows:

§ 58A-1. Purpose.

This ordinance establishes requirements for the proper disposal of pet solid waste
in the Township of Eagleswood, so as to protect public health, safety and welfare, and prescribes
penalties for failure to comply.

For the purpose of this ordinance, the following terms, phrases, words and their
derivations shall have the meanings stated herein unless their use in the text of this Chapter
clearly demonstrates a different meaning. When not inconsistent with the context, words used in
the present tense include the future, words used in the plural number include the singular number,
and words used in the singular number include the plural number. The word "shall" is always
mandatory and not merely directory.

a. Immediate – shall mean that the pet solid waste is removed at once, without delay.

b. Owner/Keeper – any person who shall possess, maintain, house or harbor any pet
or otherwise have custody of any pet, whether or not the owner of such pet.
c. Person – any individual, corporation, company, partnership, firm, association, or political subdivision of this State subject to municipal jurisdiction.

d. Pet - a domesticated animal (other than a disability assistance animal) kept for amusement or companionship.

e. Pet solid waste – waste matter expelled from the bowels of the pet; excrement.

f. Proper disposal – placement in a designated waste receptacle, or other suitable container, and discarded in a refuse container which is regularly emptied by the municipality or some other refuse collector; or disposal into a system designed to convey domestic sewage for proper treatment and disposal.

All pet owners and keepers are required to immediately and properly dispose of their pet’s solid waste deposited on any property, public or private, not owned or possessed by that person.

§ 58A-4. Exemptions.

Any owner or keeper who requires the use of a disability assistance animal shall be exempt from the provisions of this section while such animal is being used for that purpose.

§ 58A-4. Enforcement.

This ordinance shall be enforced by the Code Enforcement Officer of the Township of Eagleswood.

§ 58A-5. Violations and Penalties.

a. Any person violating or failing to comply with any of the provisions of this Chapter shall, upon conviction thereof, be punishable by a fine of not more than $500.00, by imprisonment for a term not to exceed ninety (90) days, or by community service of not more than ninety (90) days, or any combination of fine, imprisonment and community service as determined in the discretion of the Municipal Court Judge. The continuation of such violation for each successive day shall constitute a separate offense, and the person or persons allowing or permitting the continuation of the violation may be punished as provided above for each separate offense.
b. The violation of any provision of this Chapter shall be subject to abatement summarily by restraining order or injunction issued by a court of competent jurisdiction.

SECTION 2. All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

SECTION 3. Each section, subsection, sentence, clause and phrase of this Ordinance is declared to be an independent section, subsection, sentence, clause and phrase, and the finding or holding of any such portion of this Ordinance to be unconstitutional, void, or ineffective for any cause, or reason, shall not affect any other portion of this Ordinance.

SECTION 4. This ordinance shall take effect after second reading and publication as required by law.
Notice

NOTICE IS HEREBY GIVEN that the foregoing ordinance was introduced and passed by the Township Committee on first reading at a meeting of the Township Committee of the Township of Eagleswood held on the 22nd day of August, 2005, and will be considered for second reading and final passage at a regular meeting of the Township Committee to be held on the 26th day of September, 2005 at 7:00 p.m., at the Municipal Building, located at 146 Division Street, West Creek, New Jersey, at which time and place any persons desiring to be heard upon the same will be given the opportunity to be so heard.

Michael E. McFadden
Acting Municipal Clerk
ORDINANCE NO. 2005-19

ORDINANCE OF THE TOWNSHIP OF EAGLESWOOD, COUNTY OF OCEAN, STATE OF NEW JERSEY, AMENDING AND SUPPLEMENTING THE TOWNSHIP CODE OF THE TOWNSHIP OF EAGLESWOOD SO AS TO CREATE A NEW CHAPTER 71 ENTITLED “IMPROPER DISPOSAL”

BE IT ORDAINED, by the governing body of the Township of Eagleswood, County of Ocean, State of New Jersey, as follows:

SECTION 1. The Code of the Township of Eagleswood is hereby amended and supplemented so as to create a new Chapter 71 entitled “Improper Disposal” which shall read in its entirety as follows:

§ 71-1. Purpose.

This ordinance prohibits the spilling, dumping, or disposal of materials other than stormwater to the municipal separate storm sewer system (MS4) operated by the Township of Eagleswood, so as to protect public health, safety and welfare, and prescribes penalties for the failure to comply.

§ 71-2. Definitions.

For the purpose of this ordinance, the following terms, phrases, words, and their derivations shall have the meanings stated herein unless their use in the text of this Chapter clearly demonstrates a different meaning. When not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word “shall” is always mandatory and not merely directory.
a. Municipal separate storm sewer system (MS4) – a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, manmade channels, or storm drains) that is owned or operated by Township of Eagleswood or other public body, and is designed and used for collecting and conveying stormwater.

b. Person – any individual, corporation, company, partnership, firm, association, or political subdivision of this State subject to municipal jurisdiction.

c. Stormwater – water resulting from precipitation (including rain and snow) that runs off the land’s surface, is transmitted to the subsurface, is captured by separate storm sewers or other sewerage or drainage facilities, or is conveyed by snow removal equipment.

§ 71-3. Prohibited Conduct.

The spilling, dumping, or disposal of materials other than stormwater to the municipal separate storm sewer system operated by Township of Eagleswood is prohibited. The spilling, dumping, or disposal of materials other than stormwater in such a manner as to cause the discharge of pollutants to the municipal separate storm sewer system is also prohibited.

§ 71-4. Exceptions to Prohibition.

a. Water line flushing and discharges from potable water sources.

b. Uncontaminated ground water (e.g., infiltration, crawl space or basement sump pumps, foundation or footing drains, rising ground waters).

c. Air conditioning condensate (excluding contact and non-contact cooling water).

d. Irrigation water (including landscape and lawn watering runoff).

e. Flows from springs, riparian habitats and wetlands, water reservoir discharges and diverted stream flows.

f. Residential car washing water, and residential swimming pool discharges.

g. Sidewalk, driveway and street wash water.

h. Flows from fire fighting activities.

i. Flows from rinsing of the following equipment with clean water:
- Beach maintenance equipment immediately following their use for their intended purposes; and

- Equipment used in the application of salt and de-icing materials immediately following salt and de-icing material applications. Prior to rinsing with clean water, all residual salt and de-icing materials must be removed from equipment and vehicles to the maximum extent practicable using dry cleaning methods (e.g., shoveling and sweeping). Recovered materials are to be returned to storage for reuse or properly discarded.

- Rinsing of equipment, as noted in the above situation is limited to exterior, undercarriage, and exposed parts and does not apply to engines or other enclosed machinery.

§ 71-5. Enforcement.

This ordinance shall be enforced by the Code Enforcement Officer of the Township of Eagleswood.

§ 71-6. Penalties:

a. Any person violating or failing to comply with any of the provisions of this Chapter shall, upon conviction thereof, be punishable by a fine of not more than $500.00, by imprisonment for a term not to exceed ninety (90) days, or by community service of not more than ninety (90) days, or any combination of fine, imprisonment and community service as determined in the discretion of the Municipal Court Judge. The continuation of such violation for each successive day shall constitute a separate offense, and the person or persons allowing or permitting the continuation of the violation may be punished as provided above for each separate offense.

b. The violation of any provision of this Chapter shall be subject to abatement summarily by restraining order or injunction issued by a court of competent jurisdiction.

SECTION 2. All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

SECTION 3. Each section, subsection, sentence, clause and phrase of this Ordinance is declared to be an independent section, subsection, sentence, clause and phrase, and
the finding or holding of any such portion of this Ordinance to be unconstitutional, void, or ineffective for any cause, or reason, shall not affect any other portion of this Ordinance.

SECTION 4. This ordinance shall take effect after second reading and publication as required by law.

Notice

NOTICE IS HEREBY GIVEN that the foregoing ordinance was introduced and passed by the Township Committee on first reading at a meeting of the Township Committee of the Township of Eagleswood held on the 22nd day of August, 2005, and will be considered for second reading and final passage at a regular meeting of the Township Committee to be held on the 26th day of September, 2005 at 7:00 p.m., at the Municipal Building, located at 146 Division Street, West Creek, New Jersey, at which time and place any persons desiring to be heard upon the same will be given the opportunity to be so heard.

PLEASE TAKE NOTICE that Ordinance No. 2005-19 of 2005, an ordinance entitled, AN ORDINANCE OF THE TOWNSHIP OF EAGLESWOOD, COUNTY OF OCEAN, STATE OF NEW JERSEY, AMENDING AND SUPPLEMENTING THE TOWNSHIP CODE OF THE TOWNSHIP OF EAGLESWOOD SO AS TO CREATE A NEW CHAPTER 71 ENTITLED “IMPROPER DISPOSAL”, was adopted by the Township of Eagleswood Committee at a meeting held on September 26, 2005.

Michael E. McFadden
Acting Municipal Clerk
ORDINANCE NO. 2005-20

ORDINANCE OF THE TOWNSHIP OF EAGLESWOOD, COUNTY OF OCEAN, STATE OF NEW JERSEY, AMENDING AND SUPPLEMENTING THE TOWNSHIP CODE OF THE TOWNSHIP OF EAGLESWOOD SO AS TO CREATE A NEW CHAPTER 82A ENTITLED “WILDLIFE FEEDING”

BE IT ORDAINED, by the governing body of the Township of Eagleswood, County of Ocean, State of New Jersey, as follows:

SECTION 1. The Code of the Township of Eagleswood is hereby amended and supplemented so as to create a new Chapter 82A entitled “Wildlife Feeding” which shall read in its entirety as follows:

§ 82A-1. Purpose.

This ordinance prohibits the feeding of unconfined wildlife in any public park or on any other property owned or operated by the Township of Eagleswood so as to protect public health, safety and welfare, and prescribes penalties for the failure to comply.

§ 82A-2. Definitions.

For the purpose of this ordinance, the following terms, phrases, words and their derivations shall have the meanings stated herein unless their use in the text of this Chapter clearly demonstrates a different meaning. When not inconsistent with the context, words used in the present tense include the future, words used in the plural number include the singular number, and words used in the singular number include the plural number. The word "shall" is always mandatory and not merely directory.

a. Feed – to give, place, expose, deposit, distribute or scatter any edible material with the intention of feeding, attracting or enticing wildlife. Feeding does not include baiting in the legal taking of fish and/or game.
b. Person – any individual, corporation, company, partnership, firm, association, or political subdivision of this State subject to municipal jurisdiction.

c. Wildlife – all animals that are neither human nor domesticated.

§ 82A-3. Prohibited Conduct.

No person shall feed, in any public park or on any other property owned or operated by the Township of Eagleswood, any wildlife, excluding confined wildlife (for example, wildlife confined in zoos, parks or rehabilitation centers, or unconfined wildlife at environmental education centers).

§ 82A-4. Enforcement.

a. This ordinance shall be enforced by the Code Enforcement Officer of the Township of Eagleswood.

b. Any person found to be in violation of this ordinance shall be ordered to cease the feeding immediately.

§ 82A-5. Violations and Penalties.

a. Any person violating or failing to comply with any of the provisions of this Chapter shall, upon conviction thereof, be punishable by a fine of not more than $500.00, by imprisonment for a term not to exceed ninety (90) days, or by community service of not more than ninety (90) days, or any combination of fine, imprisonment and community service as determined in the discretion of the Municipal Court Judge. The continuation of such violation for each successive day shall constitute a separate offense, and the person or persons allowing or permitting the continuation of the violation may be punished as provided above for each separate offense.

b. The violation of any provision of this Chapter shall be subject to abatement summarily by restraining order or injunction issued by a court of competent jurisdiction.

SECTION 2. All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

SECTION 3. Each section, subsection, sentence, clause and phrase of this Ordinance is declared to be an independent section, subsection, sentence, clause and phrase, and
the finding or holding of any such portion of this Ordinance to be unconstitutional, void, or ineffective for any cause, or reason, shall not affect any other portion of this Ordinance.

SECTION 4. This ordinance shall take effect after second reading and publication as required by law.

Notice

NOTICE IS HEREBY GIVEN that the foregoing ordinance was introduced and passed by the Township Committee on first reading at a meeting of the Township Committee of the Township of Eagleswood held on the 22nd day of August, 2005, and will be considered for second reading and final passage at a regular meeting of the Township Committee to be held on the 26th day of September, 2005 at 7:00 p.m., at the Municipal Building, located at 146 Division Street, West Creek, New Jersey, at which time and place any persons desiring to be heard upon the same will be given the opportunity to be so heard.

ORDINANCE NO. 2005- 21

ORDINANCE OF THE TOWNSHIP OF EAGLESWOOD, COUNTY OF OCEAN, STATE OF NEW JERSEY, AMENDING AND SUPPLEMENTING CHAPTER 85 OF THE TOWNSHIP CODE OF THE TOWNSHIP OF EAGLESWOOD ENTITLED “RECYCLING”

BE IT ORDAINED, by the governing body of the Township of Eagleswood, County of Ocean, State of New Jersey, as follows:

SECTION 1. Chapter 85 of the Township Code of the Township of Eagleswood entitled “Recycling” is hereby amended and supplemented so as to revise Section 85-2 entitled “Definitions” so as to add definitions which shall provide in their entirety as follows:

Containerized – means the placement of leaves in a trash can, bucket, bag or other vessel, such as to prevent the leaves from spilling or blowing out into the street and coming into contact with stormwater.

Street - means any street, avenue, boulevard, road, parkway, viaduct, drive, or other way, which is an existing State, county, or municipal roadway, and includes the land between the street lines, whether improved or unimproved, and may comprise pavement, shoulders, gutters, curbs, sidewalks, parking areas, and other areas within the street lines.

SECTION 2. Chapter 85 of the Township Code of the Township of Eagleswood entitled “Recycling” is hereby amended and supplemented so as to revise Section 85-5 entitled “Separation of leaves and placement for disposal” so as to relabel the existing paragraph as “Paragraph A” and add a new “Paragraph B” which shall read in its entirety as follows:

§ 85-5. B.

The owner or occupant of any property, or any employee or contractor of such owner or occupant engaged to provide lawn care or landscaping services, shall not sweep, rake,
blow or otherwise place leaves, unless the leaves are containerized, in the street. If leaves that are not containerized are placed in the street, the party responsible for placement of the leaves must remove the leaves from the street or said party shall be deemed in violation of this Chapter.

SECTION 3. All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

SECTION 4. Each section, subsection, sentence, clause and phrase of this Ordinance is declared to be an independent section, subsection, sentence, clause and phrase, and the finding or holding of any such portion of this Ordinance to be unconstitutional, void, or ineffective for any cause, or reason, shall not affect any other portion of this Ordinance.

SECTION 5. This ordinance shall take effect after second reading and publication as required by law.

BE IT ORDAINED, by the governing body of the Township of Eagleswood, County of Ocean, State of New Jersey, as follows:

SECTION 1. Chapter 92 of the Code of the Township of Eagleswood, County of Ocean, State of New Jersey, entitled “Subdivision of Land” is hereby amended and supplemented so as to add a new subparagraph B(17) to Article III, Section 92-11, entitled “Plat details.” The new subparagraph B(17) shall read in its entirety as follows:

B. (17) Compliance with storm drainage facilities in accordance with the applicable requirements of the latest editions of the Residential Site Improvement Standards (RSIS); the Pinelands Municipal Stormwater Control Ordinance (if applicable); N.J.A.C. 7:8 Subchapters 5 and 6; the New Jersey Department of Transportation Roadway Design Manual and Standard Specifications for Road and Bridge Construction as well as all references in each.

SECTION 2. Chapter 92 of the Code of the Township of Eagleswood, County of Ocean, State of New Jersey, entitled “Subdivision of Land” is hereby amended and supplemented so as to add a new subparagraph B(22) to Article IV, Section 92-15, entitled “Detail required on preliminary plats.” The new subparagraph 92-15 B(22) shall read in its entirety as follows:

B. (22) Compliance with storm drainage facilities in accordance with the applicable requirements of the latest editions of the Residential Site Improvement Standards (RSIS); the Pinelands Municipal Stormwater Control Ordinance (if applicable); N.J.A.C. 7:8 Subchapters 5 and 6; the New Jersey Department of Transportation Roadway Design Manual and Standard Specifications for Road and Bridge Construction as well as all references in each.
SECTION 3. Chapter 92 of the Code of the Township of Eagleswood, County of Ocean, State of New Jersey, entitled “Subdivision of Land” is hereby amended and supplemented so as to delete subparagraphs A through J in Article VII, Section 92-27, entitled “Storm drainage,” and add a new subparagraph A, entitled “Stormwater Calculations,” which shall read in its entirety as follows:

A. Stormwater Calculations. All storm drainage systems shall be designed to carry the runoff from the entire watershed. Runoff shall be computed in accordance with RSIS or Pinelands Municipal Stormwater Control Ordinance (if applicable) latest as amended.

SECTION 4. Chapter 92 of the Code of the Township of Eagleswood, County of Ocean, State of New Jersey, entitled “Subdivision of Land,” is hereby amended and supplemented so as to re-entitle existing subparagraphs K through N in Article VII, Section 92-27, entitled “Storm drainage,” as subparagraphs B through E. In addition, Section 92-27, subparagraph E shall read in its entirety, as follows:

E. Storm drain pipe and minimum pipe size. The minimum size of storm drain permitted shall be fifteen (15) inches, except that eighteen (18) inches minimum shall be used for all pipes draining low points. All storm drain pipes will be joined using a preformed bituminous mastic pressure type, joint sealer or rubbering type or other equivalent approved joint.

SECTION 5. Chapter 92 of the Code of the Township of Eagleswood, County of Ocean, State of New Jersey, entitled “Subdivision of Land,” is hereby amended so as to revise Section 92-27, entitled “Storm drainage,” so as to change the current subparagraph O to subparagraph F.

SECTION 6. Chapter 92 of the Code of the Township of Eagleswood, County of Ocean, State of New Jersey, entitled “Subdivision of Land,” is hereby supplemented so as to add a new subparagraph G to Article VII, Section 92-27, entitled “Storm drainage.” The new subparagraph G shall read in its entirety as follows:
G. Detention/Retention Facilities. All detention/retention facilities shall be in accordance with the applicable requirements of the latest editions of RSIS; the Pinelands Municipal Stormwater Control Ordinance (if applicable); N.J.A.C. 7:8 Subchapters 5 and 6; the NJDOT Roadway Design Manual and Standard Specifications for Road and Bridge Construction as well as all references in each.

However, all retention facilities shall be designed for double the capacity obtained by applying the requirements for detention facilities.

SECTION 7. Chapter 103 of the Code of the Township of Eagleswood, County of Ocean, State of New Jersey, entitled “Zoning,” is hereby amended and supplemented so as to revise Article V, Section 103-29, entitled “Site plan approval procedure,” so as to add a new subparagraph A (2)(bb)[4], which shall read in its entirety as follows:

A. (2)(bb)[4] All storm drainage systems shall be designed to carry the runoff from the entire watershed. Runoff shall be computed in accordance with RSIS or Pinelands Municipal Stormwater Control Ordinance (if applicable) latest as amended.

SECTION 8. After introduction of this ordinance, the Township Clerk shall send a copy of this ordinance to the Municipal Planning Board for its review and comment. The Township Clerk shall also send copies of this ordinance to all adjoining municipalities pursuant to N.J.S.A. 40:55D-26, and to the Ocean County Planning Board pursuant to N.J.S.A. 40:55D-16 by certified mail at least ten (10) days prior to the proposed second reading and adoption of this ordinance.

SECTION 9. All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

SECTION 10. Each section, subsection, sentence, clause and phrase of this Ordinance is declared to be an independent section, subsection, sentence, clause and phrase, and the finding or holding of any such portion of this Ordinance to be unconstitutional, void, or ineffective for any cause, or reason, shall not affect any other portion of this Ordinance.
SECTION 11. This ordinance shall take effect after second reading and publication as required by law and filing of the ordinance with the Ocean County Planning Board.

SECTION 12. After adoption of this ordinance on second reading, the Township Clerk shall file a certified copy of this ordinance with the Ocean County Planning Board.

Notice

NOTICE IS HEREBY GIVEN that the foregoing ordinance was introduced and passed by the Township Committee on first reading at a meeting of the Township Committee of the Township of Eagleswood held on the 27th day of February, 2006, and will be considered for second reading and final passage at a regular meeting of the Township Committee to be held on the 27th day of March, 2006 at 7:00 p.m., at the Municipal Building, located at 146 Division Street, West Creek, New Jersey, at which time and place any persons desiring to be heard upon the same will be given the opportunity to be so heard.

Michael McFadden, CLERK
TOWNSHIP OF EAGLESWOOD
